Description

Tropicana Cookies is a sativa dominant hybrid strain created through a cross of the infamous Girl Scout Cookies X Tangie strains. Searching for an insanely delicious flavor that will have you practically begging for more? You've found it with Tropicana Cookies. This bright bud packs a super delicious sour citrus high with a slightly sweet cookie exhale. The aroma is of earthy pine and sour spice with a heavy orange overtone that turns slightly pungent as the nugs are burned. The Tropicana Cookies high is just as eye-opening as the flavor, with long-lasting effects that will get you up off the couch and moving in no time at all. You'll feel an energetic onset at the start of the high, filling both mind and body with

tingly happiness and a sense of creative motivation. A touch of relaxation comes next, leaving your physical state calm while your mind soars higher and higher into the stratosphere. Thanks to these daytime effects and its high 21-28% average THC level, Tropicana Cookies is said to be perfect for treating those suffering from conditions such as depression, nausea or appetite loss, mood swings and chronic stress or anxiety. This bud has heart-shaped minty green nugs with dark purple undertones, lots of thin amber hairs and a coating chunky dark purple-tinted crystal trichomes.

Modified Banana is (Banana OG x Donny Burger)

Banana OG - The smell of banana peels and Christmas pine trees is what you get with Banana OG. The taste is also like bananas and some people report a cinnamon taste. This is an Indica dominant cross 70:30 Indica/Sativa hybrid between Banana X OG Kush. The THC level is 25%. This plant is a light green color. It has brown hairs that grow quickly and get darker as the date for harvesting approaches. While the yield isn't as high with this particular strain of cannabis, the potency of it makes up for it. Many people find Banana OG is affordable and gives them a high they enjoy without it being too powerful. Banana OG offers a mellow buzz that sets in quickly. It affects mainly the body so your mind will relax but still be very functional. The overall mellowing effect can help with reducing stress and an anxiety. If you use large amounts of this cannabis, it is going to make your eyelids very heavy. Large amounts can also result in couch lock. It is a good choice for reducing muscle pain and inflammation.

Skunk House Genetics' Donny Burger strain is a combination of GMO and its proprietary Han Solo Burger. The top reported aromas of the Donny Burger strain are cheese, lemon, and spices. It is said to taste of cheese, citrus, and pepper.
